

FULL REPORT

GEO audit report: beans.cafecito.tech

One-page audit of https://beans.cafecito.tech/ by geo.new. Laid out to read top to bottom, print or hand on.

AUDITED STATUS SCORE
2026-10-02 partial **52/100 (Poor)**

CHECKS

128 measured, 26 not applicable to this page, 19 not measured

REPORT

aud_4a3ba86d19586318e5ca5ec5c766530d, revision 22

1 Executive summary

beans.cafecito.tech scores 52/100 (Poor) across 6 measured categories. Strongest: AI Access and Rendering at 93. Weakest: Brand and Entity at 28.

No critical access blocker: crawlers can reach and read the page.

26 actions identified: 9 quick wins, 12 medium-term, 5 strategic. Start with "Canonical target".

2 GEO Audit Score: 52/100, Poor

one weighted mean of six categories; no calibration, floor or projection

CATEGORY	WEIGHT	SCORE	ISSUES	REVIEW	COVERAGE
AI Citability	22%	32	6	1	100%
Content and E-E-A-T	22%	35	7	3	100%
AI Access and Rendering	15%	93	0	12	97%
Schema and Structured Data	13%	93	0	1	100%
Brand and Entity	20%	28	1	3	100%
Platform Readiness	8%	73	9	5	100%

100% of the applicable checks were measured. Unknown is unmeasured: it is never a pass and never a warning.

3 AI platform readiness

derived from the checks each platform relies on; not a visibility prediction

PLATFORM	READINESS	STATUS	KEY GAP (AI)	PRIORITY ACTION (AI)
Google AI Overviews	68	moderate	—	—
ChatGPT search	87	strong	—	—
Perplexity	47	moderate	—	—
Google Gemini	81	strong	—	—
Bing Copilot	85	strong	—	—

4 AI crawler access

robots policy for this URL, read from robots.txt; reachability was not tested with each agent

AGENT	PURPOSE	POLICY	RULE
Googlebot	Search engine	Allowed	Allow: /
bingbot	Search engine	Allowed	Allow: /
OAI-SearchBot	AI search	Allowed	Allow: /
PerplexityBot	AI search	Allowed	Allow: /
Claude-SearchBot	AI search	Allowed	Allow: /
Applebot	AI search	Allowed	Allow: /
DuckAssistBot	AI search	Allowed	Allow: /
ChatGPT-User	User-initiated fetch	Allowed	Allow: /
Claude-User	User-initiated fetch	Allowed	Allow: /
Perplexity-User	User-initiated fetch	Allowed	Allow: /
Meta-ExternalFetcher	User-initiated fetch	Allowed	Allow: /
MistralAI-User	User-initiated fetch	Allowed	Allow: /
Google-Extended	Grounding and ecosystem	Allowed	Allow: /
GoogleOther	Grounding and ecosystem	Allowed	Allow: /
Applebot-Extended	Grounding and ecosystem	Allowed	Allow: /
Amazonbot	Grounding and ecosystem	Allowed	Allow: /
FacebookBot	Grounding and ecosystem	Allowed	Allow: /

AGENT	PURPOSE	POLICY	RULE
GPTBot	Training (never scored)	Allowed	Allow: /
ClaudeBot	Training (never scored)	Allowed	Allow: /
CCBot	Training (never scored)	Allowed	Allow: /
Bytespider	Training (never scored)	Allowed	Allow: /
cohere-ai	Training (never scored)	Allowed	Allow: /
anthropic-ai	Training (never scored)	Allowed	Allow: /
Meta-ExternalAgent	Training (never scored)	Allowed	Allow: /

24 of 24 documented agents are allowed. A training opt-out never lowers the score.

5 Brand and entity

what the page declares about who is behind it

Declared: Organization, WebSite; 1 sameAs link; profiles GitHub.

CHECK	RESULT	OBSERVED	CHANGE
ENT-02 Entity name consistency	Review	schema name: "Project Cafecito"; og:site_name: "Beans". Headlines are not name declarations: the title carries it; the H1 carries it.	Use the same organization name in schema, og:site_name, the title suffix and the homepage H1.
ENT-03 Wikipedia or Wikidata reference	Informational	No Wikipedia or Wikidata URL in sameAs.	Informational: add the Wikipedia article or Wikidata item URL to sameAs once the entity has one.
ENT-04 Profile links declared	Review	1 profile platforms declared or linked: GitHub.	Link or list at least three public profiles (LinkedIn, YouTube, X, GitHub, Crunchbase, G2, Trustpilot).
ENT-05 Contact point declared	Review	ContactPoint, telephone or email in JSON-LD: no; tel: links 0, mailto: links 0.	Declare a ContactPoint, telephone or email in schema, or link tel: and mailto: on the page.

CHECK	RESULT	OBSERVED	CHANGE
ENT-06 Entity registry lookup	Informational	No Wikidata item matched "Project Cafecito" (from schema; searched in en).	Informational: an optional Wikidata lookup can confirm the entity is known; it is off until decided.
ENT-08 Moz Domain Authority	Issue	Moz Domain Authority for cafecito.tech is 11 of 100.	Earn links and mentions from established sites in your field; Domain Authority follows linking domains.

6 open, 1 passing, 13 not measured of 20 checks in this category.

- Brand searched: Project Cafecito (from schema), US/en, desktop.
- wikidata: empty.
- wikipedia: skipped (No Wikipedia title from Wikidata or the declared sameAs links.).
- brand serp: skipped (The brand search is not configured or has no allowance today.).
- reviews serp: skipped (The review search is not configured or has no allowance today.).

ChatGPT answers: one answer about the brand, not this page; unscored

Not asked: today's ChatGPT allowance was used before this audit started. It resets at 00:00 UTC.

6 AI citability

how quotable the page's passages are for AI answers

Average not measured across 0 scored blocks.

CHECK	RESULT	OBSERVED	CHANGE
CIT-01 Scorable content blocks	Issue	0 blocks with a heading and at least 20 words, of 1 block in the main content.	Structure the main content as headings with at least 20 words of text under each.
CIT-02 Sections an AI answer could quote	Issue	No scorable block. Only 8 words of main text, so there is nothing to credit.	Rewrite weak blocks to open with the answer, stay self-contained, and carry specific figures.

CHECK	RESULT	OBSERVED	CHANGE
CIT-03 Citation-ready block	Issue	No scorable block. Only 8 words of main text, so there is nothing to credit.	Make at least one block a complete, quotable answer of 40-200 words with a clear opening and a figure.
CIT-05 Question-form headings	Issue	Main text has 8 words; question headings are assessed from 300 words. Only 8 words of main text, so there is nothing to credit.	Phrase some H2-H4 headings as the questions readers ask.
CIT-07 Tables or lists in the main content	Issue	1 content blocks; tables and lists are assessed from 3. Only 8 words of main text, so there is nothing to credit.	Present comparable facts as a list or a table.
CIT-08 Statistical density	Review	0 specific figures in 8 words (0.0 per 500 words).	Add specific figures: percentages, amounts, years and measured values with units.
CIT-13 Source attribution density	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Add attribution phrases: "according to [Source]", "a study by [Org] found", "data from [Source]".

7 open, 3 passing, 1 not applicable of 11 checks in this category.

7 Content and E-E-A-T

experience, expertise, authority and trust signals on the page

PILLAR	POINTS	ASSESSMENT (AI)
Experience	0/25	—
Expertise	0/25	—
Authoritativeness	13/25	—
Trustworthiness	10/25	—

CHECK	RESULT	OBSERVED	CHANGE

CHECK	RESULT	OBSERVED	CHANGE
EAT-01 First-person experience	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Describe what you tested, measured or found first-hand.
EAT-02 Original data or case study	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Include original data, a survey or a case study with its numbers.
EAT-03 Author attribution	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Add a visible byline with rel="author" or schema author markup.
EAT-04 Author bio or credentials	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Link the byline to an author page and state the author's credentials.
EAT-05 Content depth	Issue	8 words in the main text; very thin. Too little for a reader or a model to take anything from the page.	Expand thin content to cover the topic fully; 300 words is a floor, not a target.
EAT-07 External source links	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Link to the primary sources behind the claims from the main content.
EAT-09 Contact details	Review	Contact link no; tel: 0; mailto: 0; ContactPoint or telephone in schema no.	Link to a contact page or provide tel: and mailto: links or a ContactPoint.
EAT-10 Privacy policy and terms links	Review	Privacy policy link not found; terms link not found.	Link to the privacy policy and the terms from every page, usually in the footer.
EAT-12 Publication and modification dates	Issue	Not an article-like page. Only 8 words of main text, so there is nothing to credit.	Declare datePublished and dateModified in schema or article: meta and show the dates on the page.

CHECK	RESULT	OBSERVED	CHANGE
EAT-16 Trust signals	Review	No review, rating, testimonial or certification signal.	Show reviews, ratings, testimonials or certifications, and mark ratings up with AggregateRating.

10 open, 6 passing, 5 not applicable of 21 checks in this category.

8 Technical health

crawl access, rendering, security, speed and markup foundations

AREA	WEIGHT	SCORE	ISSUES	REVIEW
AI access and rendering	30%	98	0	1
Core	15%	89	0	3
Performance	12%	92	0	2
Security	10%	83	0	2
Links	6%	100	0	0
Images	6%	82	0	3
Accessibility	5%	92	0	1
Social	4%	–	0	0
URL structure	4%	–	0	0
Mobile	3%	–	0	0
HTML validation	2%	–	0	0
Redirects	2%	100	0	0
Internationalization	1%	–	0	0

OBSERVATION	VALUE	SOURCE
HTTP status	200	Direct fetch
First response	550 ms	Direct fetch
HTML weight	29 KiB	Direct fetch
Redirects	0	Direct fetch

OBSERVATION	VALUE	SOURCE
First contentful paint	–	Browser lab
Largest contentful paint	–	Browser lab
Page load	–	Browser lab

Browser timings are one desktop lab observation, not field Core Web Vitals.

CHECK	RESULT	OBSERVED	CHANGE
SEC-02 HTTP Strict Transport Security	Review	No Strict-Transport-Security header.	Send a Strict-Transport-Security header with a max-age of at least one day; a year with includeSubDomains is common.
SEC-03 Security headers	Review	0 of 5 hardening headers present. Missing: Content-Security-Policy, X-Frame-Options or frame-ancestors, X-Content-Type-...	Send the standard hardening headers: Content-Security-Policy, X-Frame-Options or frame-ancestors, X-Content-Type-Options: nosniff, Referrer-Policy and Permissi...
PERF-11 Cache headers	Review	Cache headers present: none.	Send Cache-Control together with an ETag or Last-Modified validator.
PERF-12 Server response time	Review	Time to first byte: 550 ms, one direct fetch from one location; a lab timing, not field data.	Reduce time to first byte with caching, a CDN or faster server rendering; this is one lab measurement.
CORE-02 Title length	Review	Title: 17 characters, about 105 px.	Keep the title under about 580 px, roughly 30 to 70 characters, so it reads fully in result listings; this is advisory.
CORE-04 Meta description length	Review	Description: 41 characters, about 252 px.	Keep the description between roughly 120 and 160 characters; longer text may be truncated in listings.

CHECK	RESULT	OBSERVED	CHANGE
CORE-06 Canonical target	Review	Canonical https://cafecito-beans-app.fly.dev/ differs from the final URL https://beans.cafecito.tech/.	Point the canonical at this page unless it is a true duplicate; a same-origin homepage target from an inner page or an http target on an https page is almost a...
IMG-04 Image dimensions declared	Review	1 of 1 image lacks width or height attributes: /beans-dark.png.	Add width and height attributes to every img so the browser reserves space before the image loads.
IMG-06 Modern image formats	Review	0 of 1 image with a recognisable format use WebP, AVIF or SVG.	Serve WebP or AVIF versions, for example through a picture element with a fallback source.
IMG-07 Responsive srcset	Review	0 images declare srcset candidates.	Provide srcset candidates so devices download an appropriately sized image.
A11Y-05 Skip link	Review	No skip link among the first three links.	Add a "Skip to content" link as the first focusable element.
ACC-19 URL listed in the sitemap	Review	This URL was not found in the fetched sitemap.	Add this URL to the sitemap so crawlers discover it without depending on links.

12 open, 74 passing, 15 not applicable, 1 not measured of 102 checks in this category.

9 Schema and structured data

JSON-LD read from the source HTML

CHECK	RESULT	OBSERVED
S08 Structured data syntax	Pass	1 JSON-LD blocks; 0 invalid and 0 empty. Syntax alone does not establish rich-result eligibility.
SCH-02 Structured data present	Pass	1 JSON-LD blocks (2 nodes), 0 microdata scopes, 0 RDFa elements.
SCH-03 JSON-LD format	Pass	JSON-LD present. 1 JSON-LD blocks (2 nodes), 0 microdata scopes, 0 RDFa elements.

CHECK	RESULT	OBSERVED
SCH-04 Recognized schema types	Pass	All 2 nodes declare a recognized @type: Organization, WebSite.
SCH-05 Required schema properties	Pass	Required properties present on Organization, WebSite.
SCH-06 Organization or Person entity node	Pass	Entity node: Organization "Project Cafecito".
SCH-07 sameAs on the entity node	Review	1 sameAs links on Organization: https://github.com/soumitsalman/beans-ui.
SCH-08 Article author as a Person	N/A	No Article-type node.
SCH-10 WebSite node on the homepage	Pass	WebSite node "Beans" declared.
SCH-11 BreadcrumbList on inner pages	N/A	Breadcrumbs are not expected on the homepage.
SCH-14 Deprecated or restricted types	Pass	No deprecated or restricted types.
SCH-15 Schema headline matches visible text	N/A	No Article headline or page name to compare.
SCH-17 FAQPage where FAQ content exists	N/A	No FAQ-like content.
SCH-18 Product or Offer markup where prices are shown	N/A	Fewer than three prices in the main text.

10 llms.txt and agent readiness

optional AI navigation file, and what an agent finds; unscored

llms.txt: not probed.

OBSERVATION	STATUS	DETAIL
A01 Robots and sitemap	detected	Robots HTTP 200; 1 sitemap declarations. Sitemap-wide completeness is not measured. The checked sitemap has valid XML syntax and a recognized root. URLs were n...
A02 Linked resources	not detected	0 HTTP Link declarations observed. Linked services are not automatically invoked.

OBSERVATION	STATUS	DETAIL
A03 Markdown negotiation	not detected	The page did not return a nonempty Markdown representation for Accept: text/markdown.
A04 Content-use signals	not detected	No observed ai-input restriction; search, AI input and training are separate purposes.
A05 Crawler purposes	detected	OAI-SearchBot (search): allowed by robots policy; GPTBot (training): allowed by robots policy; ChatGPT-User (user initiated): allowed by robots policy. Trainin...
A06 API catalog	not detected	No metadata at the checked location (https://beans.cafecito.tech/.well-known/api-catalog).
A07 MCP server card	not detected	No metadata at the checked location (/.well-known/mcp/server-card.json).
A08 Agent Skills index	not detected	No metadata at the checked location (/.well-known/agent-skills/index.json).
A09 OAuth discovery	not applicable	No supported OAuth discovery declaration was observed; a Basic authentication challenge alone does not establish OAuth support.
A10 Web Bot Auth directory	not applicable	No HTTP Link to the signing-directory location was declared. This content site is not required to publish bot signing keys.
A11 WebMCP declarations	not detected	No declarative WebMCP forms in this captured document. Imperative registration, shadow DOM and other frames were not inspected; browser API presence is not evi...
A12 Optional llms.txt	unknown	This optional observation could not be completed within its permission, time or response budget.
A13 Commerce capabilities	not detected	No supported commerce signal in captured response headers.

11 Action plan

root-cause actions, critical first, then by impact; effort is a measured attribute of the rows

Quick wins – small changes, usually one file

#	ACTION	CHANGE	EFFORT	TIME (AI)	ROWS

#	ACTION	CHANGE	EFFORT	TIME (AI)	ROWS
1	Canonical target	Point the canonical at this page unless it is a true duplicate; a same-origin homepage target from an inner page or an http target on an https page is almost always a mistake.	small	–	CORE-06
2	HTTP Strict Transport Security	Send a Strict-Transport-Security header with a max-age of at least one day; a year with includeSubDomains is common.	small	–	SEC-02, SEC-03
3	Source attribution density	Add attribution phrases: "according to [Source]", "a study by [Org] found", "data from [Source]".	small	–	CIT-13
4	Meta description length	Keep the description between roughly 120 and 160 characters; longer text may be truncated in listings.	small	–	CORE-04
5	Title length	Keep the title under about 580 px, roughly 30 to 70 characters, so it reads fully in result listings; this is advisory.	small	–	CORE-02
6	Cache headers	Send Cache-Control together with an ETag or Last-Modified validator.	small	–	PERF-11
7	Server response time	Reduce time to first byte with caching, a CDN or faster server rendering; this is one lab measurement.	small	–	PERF-12
8	URL listed in the sitemap	Add this URL to the sitemap so crawlers discover it without depending on links.	small	–	ACC-19
9	Skip link	Add a "Skip to content" link as the first focusable element.	small	–	A11Y-05

Medium term – template or content work

#	ACTION	CHANGE	EFFORT	TIME (AI)	ROWS
1	Author attribution	Add a visible byline with rel="author" or schema author markup.	medium	–	EAT-03, EAT-04

#	ACTION	CHANGE	EFFORT	TIME (AI)	ROWS
2	Publication and modification dates	Declare datePublished and dateModified in schema or article: meta and show the dates on the page.	medium	—	EAT-12
3	sameAs on the entity node	List at least three authoritative profiles (Wikipedia, LinkedIn, Crunchbase, GitHub) in sameAs.	medium	—	SCH-07, ENT-02
4	Image dimensions declared	Add width and height attributes to every img so the browser reserves space before the image loads.	medium	—	IMG-04
5	Contact point declared	Declare a ContactPoint, telephone or email in schema, or link tel: and mailto: on the page.	medium	—	ENT-05, EAT-09
6	Tables or lists in the main content	Present comparable facts as a list or a table.	medium	—	CIT-07
7	Modern image formats	Serve WebP or AVIF versions, for example through a picture element with a fallback source.	medium	—	IMG-06, IMG-07
8	Profile links declared	Link or list at least three public profiles (LinkedIn, YouTube, X, GitHub, Crunchbase, G2, Trustpilot).	medium	—	ENT-04
9	Question-form headings	Phrase some H2-H4 headings as the questions readers ask.	medium	—	CIT-05
10	External source links	Link to the primary sources behind the claims from the main content.	medium	—	EAT-07
11	Statistical density	Add specific figures: percentages, amounts, years and measured values with units.	medium	—	CIT-08
12	Privacy policy and terms links	Link to the privacy policy and the terms from every page, usually in the footer.	medium	—	EAT-10

Strategic – larger content and architecture work

#	ACTION	CHANGE	EFFORT	TIME (AI)	ROWS
1	Scorable content blocks	Structure the main content as headings with at least 20 words of text under each.	large	–	CIT-01, CIT-02, CIT-03
2	Moz Domain Authority	Earn links and mentions from established sites in your field; Domain Authority follows linking domains.	large	–	ENT-08
3	Content depth	Expand thin content to cover the topic fully; 300 words is a floor, not a target.	large	–	EAT-05
4	First-person experience	Describe what you tested, measured or found first-hand.	large	–	EAT-01, EAT-02
5	Trust signals	Show reviews, ratings, testimonials or certifications, and mark ratings up with AggregateRating.	large	–	EAT-16

12 What to keep

92 checks pass; no category is above 80 yet.

13 Appendix: method and limits

- Scope: one public page, <https://beans.cafecito.tech/>, its robots.txt and declared discovery files. No other page was fetched.
- Fetched 2026-10-02 with the identified geo.new bot; source HTML scored by rules geo-new-rules-v22, diagnostics 10, extraction source-html-v20, agent observations agent-observations-v6.
- Browser observation: desktop-cloudflare-1280x800-v3, not available; screenshot captured.
- AI interpretation: turned off (AI is not configured or its daily allowance is exhausted.).
- Asked from a logged-out US session in English; from elsewhere the answer may differ. The answers were retrieved from chatgpt.com through a third-party provider (scrape.do) at the recorded time; the provider's terms apply. One answer is not a measurement of a stable state. OpenAI's terms apply to ChatGPT's answers, and asking can prompt ChatGPT's own search to visit beans.cafecito.tech.
- Sections: connection ready, basic checks ready, screenshot ready, browser timing

unavailable, source diagnostics partial, agent readiness partial, AI interpretation not_applicable, brand searches ready, ChatGPT answers not_applicable.

Not measured or not established

- Scores describe measured checks on this page; they do not predict rankings, traffic or AI citations.
- Browser timings are single lab observations, not field Core Web Vitals.

Rules geo-new-rules-v22 · report aud_4a3ba86d19586318e5ca5ec5c766530d revision 22. Scores describe measured checks; they do not predict rankings or AI citations. Unknown is unmeasured.
